

SWITCH

Mobile Markerboard

calyx by Claridge

With the Switch Mobile, we identified several key functions needed in multi-use settings, most notably the ability to stack and store pieces into a small footprint. The simple form of the mobile legs takes inspiration from the splitting and bending of a single plane – imagine taking a single piece of paper and tearing it apart. This not only gives the Switch Mobile a look as if it is in movement but also allows the mobiles to nest 4 units in-line tightly together within a 34" footprint depth when being stowed away into a closet or corner of the room.

- Available in Calyx Glass and LCS Porcelain writing surfaces
- The slim trim elements give the board a minimalistic quality
- Switch Mobile is designed to be functionally agile
- Can easily be nested and stowed away when not in use
- Comes with two (2) locking and two (2) non-locking hubless casters
