

When properly installed in an appropriate environment and used under normal, intended conditions—with proper care and maintenance, including the use of recommended markers, erasers, and cleaning products—Calyx Glass markerboard writing surfaces are warranted to be free from defects for a period of twenty (20) years.

This warranty does not cover damages resulting from earth movement, natural disasters, or other natural and/or man-made events. The use of abrasive cleaners is not recommended, as such products may dull, scratch, or pit the glass surface and will void warranty coverage for resulting damage.

This warranty is limited to the replacement of defective glass writing surfaces only. It does not cover damage to the edges of the glass board, nor does it include any costs associated with removal, reinstallation, or related labor charges.
