

Midair

Mobile Markerboard

calyx by Claridge

Midair introduces a striking new aesthetic to the mobile collection with the addition of a clear glass option that creates the illusion of a floating center panel. The center area of the glass can be custom printed with unlimited color options or designed graphics, while the transparent outer edges reveal the mobile core beneath, delivering a refined layered appearance. Framed with warm wood-finish edging and featuring a magnetic surface, Midair combines elevated visual lightness with everyday functionality for modern collaborative spaces.
